Dear Yifan Deng:

We are pleased to invite you to attend ACL'23 — the 61st Annual Meeting of the Association for Computational Linguistics — July 9–14, 2023 at The Westin Harbour Castle, Toronto, Ontario, Canada. We welcome your participation in this important event, and greatly value your support.

At ACL'23, participants will have the opportunity to exchange ideas and expertise in an international framework, meet friends and colleagues from all over the world, and listen to talks delivered by leaders in the field.

We note that you have submitted a paper to ACL'23, titled "Towards Faithful Dialogues via Focus Learning". We thank you for your submission, which was accepted to appear at ACL'23.

Visitors from another country wishing to attend the conference will require appropriate documents to enter Canada. The type of documentation required depends on the purpose of the visit and your country of citizenship. You may also be required to meet with an Officer at a Canadian consulate.

For an overview and more information on obtaining a Canadian visa, visa policy, and application procedures, please visit this Canadian Government website:
https://www.canada.ca/en/immigration-refugees-citizenship/services/visit-canada.html

While ACL has no influence or role in the visa process, we want you to be aware of potential delays in the process. Due to potential lags in visa processing in some countries, if you need a visa to Canada, you should apply as early as possible prior to your departure.

We anticipate a highly successful and exciting meeting. For updated information about the conference, please visit our website https://2023.aclweb.org/. We look forward to your in-person participation at the meeting.

Sincerely,

Graeme Hirst (he/him) • Local Advisor to ACL'23
Professor Emeritus, Computational Linguistics
